

short $a=10, b=20, c=30;$

14/11.

Asjurn Bhandari 10Sec.

register - save in cache

auto - compiler decides the loc

volatile - save in RAM

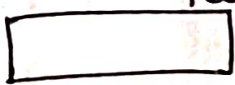

extern. - variables can be used in other files.

Address(a).

$a = \underline{10}$

ptr \rightarrow 

$a = 100$

ptr \rightarrow 

~~*ptr = b,~~

$a = 20.$
